9.

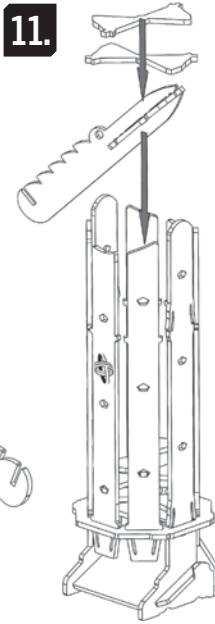

2. Slowly lead the stair down between the vertical walls of the tower

3. Fit one side of the stair into the connector on the wall and then attach the other side

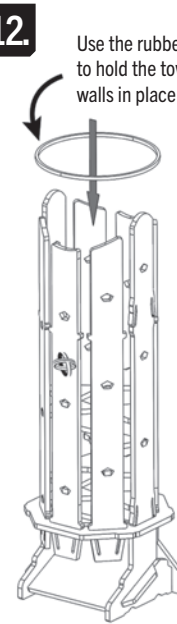

10.

11.

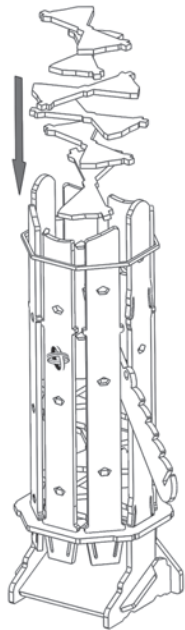

12.

Use the rubber band to hold the tower's walls in place

13.

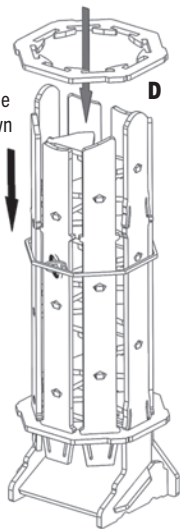

14.

PUSH VERY GENTLY

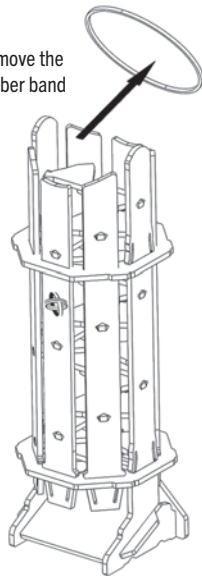

Parts may break if you push too hard!

Carefully slide the rubber band down

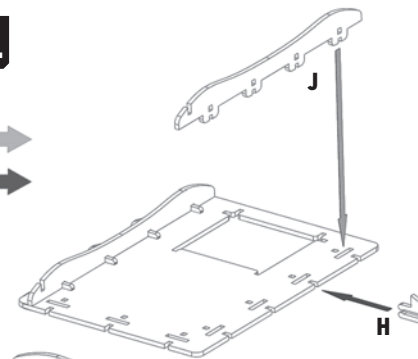

15.

Remove the rubber band
